

WHEN RELIABILITY OF SUPPLY IS ESSENTIAL

ESSE

SUPPLY AND LOGISTICS

WE'RE BRILLIANTLY RELIABLE

We've established a supply and logistics business to solve one of the biggest challenges in African mining - ensuring reliability of supply.

ADDRESSING MINING SUPPLY CHALLENGES

Historically, there's been no choice but to accept missing goods, subpar service, and high costs. A larger procurement team was required to mitigate operational risks, and business practices had to be compromised for mining operations in Africa. With ESSE, that situation has changed.

We are the dedicated supply and logistics service for mining companies, mining contractors, and civil contractors across West Africa. We offer a high-quality, reliable supply solution - from procurement of consumables, parts, and earthmoving equipment to logistics and delivery to your site.

CERTAINTY IS WHAT'S NEEDED

By investing in the right systems and processes, people, transport and heavy lifting equipment, warehouses, and facilities, we ensure you receive your supplies and equipment when you need them. Additionally, our commitment to safety, sustainability, and ethical labour practices are aligned to the highest standards. Delivering certainty to our customers is where we excel.

Fully integrated supply solution

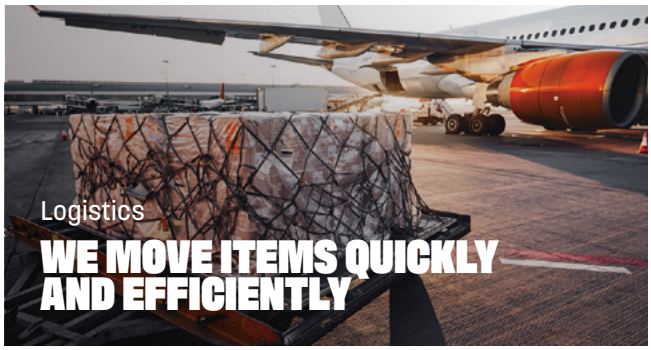

Specialised supply and logistics services for mining

Operates like an in-house procurement team

Comprehensive sourcing, procurement, and delivery of all required materials

WE DELIVER CERTAINTY
